

~~VIBT- SEMINAR LISTE~~

Seminarraum 12

INSTITUTE	SPEAKER	THEME	DATE	Time
Ab Oktober 2010				
Chemie, Wilson	Mike Ferguson, University of Dundee, Scotland	Glycobiology, Parasitology	Postponed to February	
Chemie, Wilson	Iain Wilson	Glycobiology, Parasitology	22. Oktober	
Nanobiotechnologie	Warren Wakarchuk Institute for Biological Sciences, Ottawa, Canada	Glycobiology, Structure and function of the enzymes, involved in making various glycol-conjugates	19. November	
Verfahrens- und Energietechnik, Chris Oostenbrink	Wilfred van Gunsteren ,ETH Zurich	Thirty years of biomolecular simulation: How far have we come	20. Jänner 2011	14.00-15.00
Wasser, Atmosphäre und Umwelt	Thomas Egli, EAWAG	Fast Microbial Analysis of Drinking Water Based on Flow Cytometry: New methods and their Application in Practice and Research	26. Jänner 2011	14.00-15.00
Department für Chemie, Obinger	Michael Groll		24. Februar 2011	14.00-15.00
Ab März 2011				
Biotechnologie, Regina Grillari	Miguel Esteban, Chinese Academy of Sciences Guangzhou	iPS: promising tools in regenerative medicine	25. März 2011	14.00-15.00
Biotechnologie, Johannes Grillari		Novel factors regulating aging and longevity	11. März 2011	14.00-15.00
Imaging Center	Monika Debreczeny	BLICK – BOKU Leica Imaging Facility	17. März 2011	14.00-15.00
Lebensmittelwissenschaften und -technologie			April 2011	

Chemie, L. März	Werner Reutter, Charité Campus Benjamin Franklin, Berlin	Sialic acid: Regulation of its biosynthesis and their biological potencies	13. Mai 2011	
Nanobiotechnologie			Juni 2011	
Angewandte Genetik und Zellbiologie	Vincent Bulone		10. Juni 2011	14.00-15.00
Angewandte Genetik und Zellbiologie	Georg Seifert			
Angewandte Genetik und Zellbiologie	Eva Stöger	Recombinant pharmaceuticals from plants – utilizing special features of different crop species		
Angewandte Genetik und Zellbiologie	Julian Ma	Recombinant pharmaceuticals from plants – developing a pipeline of potential products
