

# INTERNATIONAL WEEK 2018

It is our pleasure to invite you to the  
10th International Week “Going International”  
organised 19 - 23 March, 2018 at  
KAUNO KOLEGIJA / University of Applied Sciences!

During the anniversary International Week we will provide the participants with the exclusive opportunity:

- of getting acquainted to KAUNO KOLEGIJA/University of Applied Sciences as one of the leading/outstanding institutions of higher education of Lithuania;
- of exploring our uniqueness and best practice which has been developed and nourished since establishment of our institution in 2000;
- of meeting with our international and social partners as well as building up stronger or new relations.

The year of 2018 is the centenary year of Restored State of Lithuania. Thus, the participants of the International Week are kindly invited to see and experience traditional Lithuanian customs, national heritage combined with modern technologies and cosmopolitan science reflecting the 100 years transformation of the state.

The 5-day programme includes lectures, workshops, Executive’s forum and International conference “Innovative (Eco-)Technology, Entrepreneurship and Regional Development” which will focus on technological and eco innovations, entrepreneurship and cooperation with social partnership.

Participants are expected to bring into the discussion examples from their own institutions and present best practices or innovative approaches to the issues addressed above. In the context of cultural activities, the participants will have the opportunity to explore Kaunas while taking part in **geo-catching tour**.

We welcome representatives of our partner institutions: academic staff and/or those who are interested in research issues on the relevant themes.
