

What integrates theory and practice for healthier cities?

10 May 2010 | 18:00
RESEARCH FOR DEVELOPMENT DIALOGUE

Picking ideas

Solid and liquid waste is hazardous and a threat to human health and the environment. Dr. Mansoor Ali (Practical Action, UK) shows how applied research helps to put basic services, such as water, sanitation and waste management, to work.

This presentation and panel discussion is organised with the Institute for Water Quality, Resource and Waste Management, TU Wien. With opening remarks by Roland Linzner, Institute of Waste Management, BOKU.
