## Postdoc Position in Analytic Number Theory

BOKU Wien - University of Natural Resources  
and Applied Life Sciences, Vienna

In the scope of a research project supported by the "Austrian Science Fund" (FWF), there will be available a one year position for a Postdoc at the Institute of Mathematics of BOKU Wien, Austria. Appointment may start on October 1, 2009.

Expressions of interest are welcome from anyone with a strong background in **Analytic Number Theory** (preferably including the theory of lattice points in large regions or the asymptotic theory of arithmetic functions), including a thesis in this field, and preferably a couple of publications in international journals.

Salary will be 3.025,90 Euro per month before tax. In accordance with Austrian immigration regulations, in case of equal qualification priority will be given to citizens of the European Union.

Expressions of interest, in English or German, should be communicated by e-mail to:

**postdoc.math@boku.ac.at**

Please attach all relevant information, such as academic CV and list of publications and preprints, in PDF format. Since we do not believe in the effectiveness of reference letters, please do not send any.

For information about the number theory research group at BOKU Wien, you may visit our web site

<http://www.boku.ac.at/math/nth.html>

and also follow the link to the main page of our institute.

The right is being retained to postpone the appointment, make no appointment at all or to appoint someone by invitation.

**The position has been filled until Sept. 30, 2011. It is expected to be offered again in spring 2011.**

**October 8, 2010**
