

EURASIA ERASMUS MUNDUS EXTERNAL CO-OPERATION WINDOW

Questionnaire for Post-Docs and Teachers

You are being asked to complete this questionnaire because you participated in an exchange as part of the **EURASIA EM – ECW project**. This questionnaire will ask you how satisfied you were with the experience and how important specific components of the experience were to you, in order to get your opinion about how the exchange programme can be improved. Your honest answer responses will be kept confidential and will help us improve the programme. This questionnaire should take fewer than 10 minutes to complete.

Enter your name here:

BOLORMAA Damdinsuren

I am from: Please name Home University

Research Institute of Animal Husbandry, MSUA

I did my exchange at: Please name Host University

BOKU

What were your main fields of teaching or research?

My main field is research study and I improved knowledge following topics:

- Dynamic Modeling of Environment system
- Pasture quality evaluation through the NEL system
- Sustainable improvement of Animal Production

SECTION 1: Short Statement on Your Experiences at the Host University (with regard to academic and cultural aspects)

The Department of Agricultural Sustainable System, BOKU contributes to the development of a network of sustainable and ecological agricultural systems, which provide food, renewable resources and energy. Also, there are develop to new concepts dynamic modeling system and community-based breeding and feeding plans of rural area. The subjects are very important issue to develop sustainable agricultural and livestock industry

My working place was very good and entertainment facilities are appropriate and adequate. All of staffs are friendly and polite. They are organized a coffee break 3 times during the week. It was really nice time to shared knowledge and experince.

I would like to thank ERASMUS-MUNDUS program for giving me the nice opportunity to learn and observe the Austrian livestock industry and modern technologies. I'm very thankful to Dr Solkner Johann, Dr Maria Wurzinger and Dr Karl Buchgraber and Dr Toni Rich (Switzerland) managing my research program. Also, thanks for all scholarships of department of livestock breeding, BOKU the kindness, the attention and helpful consideration and discussion.

SECTION 2: Benefits of the Exchange Experience

During this three month period I improved theoretical knowledge and practical experience on dynamic modeling system and energy evaluation system of animal feed. I got knowledge about Austrian culture and education and learned how to work in international level. I visited Raumberg-Gumpenstein institute, Austria and Agroscope and Animal nutrition Institute Switzerland. I contacted with the 2 institutes and we are discussed to collaborate and exchange lab samples in the future.

I learned new laboratory method of 5 trace elements and working procedure of AAS apparatus. It was really benefits our laboratory. Our lab has been bought the equipment but not adapted to work . Now I learned, happy to teach my lab staffs.

After going back I can apply pasture evaluation method of through net energy system and will be designed dynamic modeling system in the extensive livestock farm. The subjects really need to helps to develop policy of sustainable livestock production system.

Also, I presented and exchanged my experience of pasture based Mongolian unique nomadic livestock husbandry. I participated in International Symposium Sustainable development Livestock Production and Health. It was very important for me learning new concepts and improved knowledge.

SECTION 3: Improving the Programme

Please share your top three recommendations for how this programme can be improved.

Recommendation One:

The Erasmus – mundus programme activities were clear, good organized. However , there is difficult to found beginning of accommodation and not easy to order OEAD-homes of short time scholars. Thanks for Anna Weiczorkiewicz helped me found the nice flat. It is possible please continue to help to find accommodation.

Recommendation Two:

The working place and facility were efficient , but difficult to take admission of email address and user account of BOKU network and ID for shorttime visitor. I used to my department's user account. Therefore for me no problem. In the future need to solve the problem.

Please submit the questionnaire to the project co-ordinator:
